

**Robert R. Loux**  
**Executive Director**  
**Office of the Governor**  
**Nevada Agency for Nuclear Projects**

Robert Loux is the Executive Director of the Nevada Agency for Nuclear Projects, a part of the Nevada Governor's Office that is responsible for overseeing federal nuclear waste and Nevada Test Site activities in the state. He was instrumental in the establishment of the Agency in 1983 and has been its only director. He has served under five Nevada governors working on radioactive waste management and other energy policy issues. Mr. Loux holds a degree from the University of Nevada, Reno and has been employed with the State since 1976.
